

NEWS FROM THE
WINNSBORO MILLS.
(Continued from page one.)

and evening sermon. Invitation has been extended to Mr. S. Harold Greene of Boston, to be present at this service. On this same day the corner stone will be set. The public is sincerely invited to attend these services. The new building and equipment offer comfort to those who attend these services.

The Sunbeams will have a picnic next Monday afternoon at 4 o'clock, at the childrens play ground below the baseball park. Each Sunbeam is expected to pay five cents before Monday to Mrs Gibson, Sunbeam leader.

Rev. R. F. Revis was attending a conference in Kings Mountain last Sunday and there was no preaching service at the Methodist church. A large number of the Methodists worshipped Sunday evening at the Baptist church.

Mr. G. H. Lokey and family visited in Columbia Sunday. They were caught in a heavy rain and received a second baptizing.

Scoutmaster Gibson took eighteen boys on a fishing hike last week. Quite a few catfish were caught and one monster eel. The boys brought home buckets of plums and berries. Needless to say that the red bugs came along home with the boys.

Mr. and Mrs. F. G. Waterson, of Kings Mountain, visited Mrs. Waterson's parents, Mr. and Mrs. J. M. Williams Sunday.

Mrs. E. W. Roberts entertained Thursday afternoon in honor of Mrs. William Grant Roberts of Atlanta, Ga. Five tables were arranged for bridge. After a series of interesting games refreshments were served consisting of frozen fruit salad, and iced tea.

The mill band is progressing in shape. Professor Comstock says that the boys will be ready soon to appear in public. They are mastering a series of numbers that will enable them to put on a very delightful programme. Prof Comstock is in Winnsboro Tuesdays and part of Wednesday until 10 A. M. He gives individual lessons on all instruments and then at night he instructs the band enmasse. Prof Comstock says, that if there are in Winnsboro not more than five persons who would like to take lessons on the violin, saxophone or any band or orchestra instrument that he would be glad to spend Wednesdays in Winnsboro and give the Mill band another rehearsal on Wednesdays from 5 to 7 P. M.

If there is any one who would like to take such lessons please communicate with Geo. C. Gibson or Darby Floyd.

GO TO CHURCH

Associate Reformed Presbyterian Church—The Rev. Oliver Johnson, Pastor. Sabbath school at 10 a. m., Mr. R. H. McDonald, Superintendent. Bible Class for young men at this hour taught by the pastor. Regular church services at 11 a. m., with sermon by Dr. Johnson.

St. John's Episcopal church: The Rev. W. P. Peyton, rector. Sunday school at 10:00 a. m., Mr. G. F. Patton, Supt., with Adults Bible Class at same hour conducted by the superintendent. Regular morning service at 11 a. m. with sermon by the rector.

Sion Presbyterian Church—The Rev. G. G. Mayes, Pastor. Sunday school at 10 a. m., Mr. M. M. Stewart, Superintendent. Men's Organized Bible Class in the Community House at 10 a. m., taught by the Pastor. Public worship at 11:00 a. m. with sermon by the Rev. G. G. Mayes.

Methodist Episcopal Church: The Rev. J. D. Holler, pastor. Sunday school at 10:00 a. m. Morning services at the usual hour by the pastor.

First Baptist Church—The Rev. John Bomar, Pastor. Sunday School at 10:00 a. m., Mr. A. Lee Scruggs, Superintendent. Morning worship with preaching by the pastor at 11:00 o'clock, also at 8 p. m. The B. Y. P. U. meets at 4 p. m. Mid-week prayer meeting at 7:30 on Wednesday evening, with talks from the Gospel of John by the Pastor.

Union services will be held at the Methodist church.

The Modern pipe organ is a development of pandean pipes. Ctesibius, a barber of Alexandria, is known to have had a crude pipe organ in 250 B. C. Archimedes had one in 220 B. C. The organ was introduced in Europe from Greece, being applied to religious devotion in churches about 657 A. D.

ATTENTION, DAIRY FARMERS!

Clemson College, June—. Here are the dairy farmer's "fourteen points", which he should know and regard if he would be successful, according to the dairy specialists of the college.

1. That cows handled gently give more milk.
2. That cows are creatures of habit and should be fed and milked at regular intervals.
3. That milkers should not be changed except when absolutely necessary.
4. That a good milker should milk at least eight cows per hour.
5. That one good man can do all the work connected with handling twenty cows and their product, when the product is sold to a nearby creamery.
6. That a good cow has a large stomach divided into four chambers, and that this stomach must be kept full for best results.
7. That she needs therefore large quantities of rough feed and that this feed must be grown at home.
8. That she should be fed grain according to the amount of milk and butter fat which she is capable of producing.
9. That the number of cows kept on the farm is not as important as the quality of the cows kept.
10. That a pretent purebred bull, from a line of heavy-producing ancestry, is a large percent of the future herd and will build it up to a profitable basis.
11. That a scrub bull, whether grade or purebred, will make himself 100 percent of the future herd by making them all scrubs and will soon put the owner out of business.
12. That good milk cows are well developed heifers.
13. That skimmilk should not be wasted on scrub bull calves.
14. That milk is an article of food and should be handled accordingly.
